

# In The Beginning Booklet

This printable is designed to allow you to teach your child about God's beautiful world. You are only limited by you and your child's creativity and imagination.

**Day 1 Night & Day** - Talk with your child about how God separated Night and Day. Go outside with your child in the morning and point out God's beautiful light. Before bedtime, take your child outside and show them how God divided the day. Your child can use either markers, crayons, or use cut out pictures to demonstrate what "Goes With" Night or Day.

**Day 2 The Heavens (Sky)** - Ask your child to look up at the clouds. What shapes can you see? Talk with your child about how God placed the puffy clouds in the sky. Print page 2 and using glue and cotton balls, fill in the cloud shape.

**Day 3 Lakes, Sea, Earth, Flowers, Trees** - Following the instructions on the last page of this booklet, your child can grow their own plant. Take a photo and paste onto the print out. Another idea - Go on a nature walk with your child and collect leaves. Paste the leaf or flower on the printout.

**Day 4 - Sun, Moon, Stars** - Sit outside with your child when the stars are shining. Count the stars and see how high you can count. Your child can use stickers, crayons, markers, etc to decorate the moon printout.

**Day 5 - Ideas** - Take a trip to the aquarium, lake or pond. Talk about all the creatures that swim or fly. Ask your child to name all the creatures they know that swim or fly. Using the printout, either use cutouts from magazines or draw/color pictures of creatures that swim on the printout.

**Day 6 - God made Animals & Man.** Your child can draw a self portrait, cut out animal photos or draw their favorite animal. This would be a perfect day for a field trip to the zoo!

**"In the beginning God created the heavens and  
the earth. And God saw that it was good."**

**Genesis 1:1, 10**

**My Name** \_\_\_\_\_

**Creatures That Fly & Creatures That Swim**

# Day 6

Animals & Man

## Bean Seed Instructions

All you need is a:

- Clear plastic cup
- Coffee filter, cotton balls or paper towel
- Water
- Dried Beans

Here is HOW you Do It:

- Wet the coffee filter, cotton balls or paper towel and place into container.
- Put the beans between the paper and sides of the container.
- Put your growing beans into God's sunlight.
- Watch God help your plant grow! Check on it daily and if your paper product needs more water, give it a drink!
